

### FEATURES

- High structural strength
- Easy Access to Instrument
- Corrosion Resistant
- Customizable

### APPLICATIONS

- Protection of instrument against:
- Sun light (overheating)
  - Dirt accumulation
  - Exposure to atmospheric conditions
  - Mechanical damage

### STANDARD PARAMETERS

|                         |   |
|-------------------------|---|
| External dimension (mm) | 363 (width) x 203 (depth) x 97 (height) |
| Minimum thickness       | 2 mm                                    |
| Material                | Carbon steel / Stainless steel          |
| Mounting                | 2" Pipe/Yoke mounting or wall mounting  |
| Color                   | Light grey                              |
| Weight                  | ~1.753 g                                |
